Education

- **Jabalpur Engineering College, Jabalpur** *July 2023 - Present*
Bachelor of Technology in Computer Science and Engineering CGPA: 7.8
- **Jawahar Navodaya Vidyalaya, Bhind** *April 2021*
Central Board of Secondary Education (C.B.S.E) Percentage: 93.8

Skills

- **Languages:** C, Python, C++, Javascript
- **Web Technologies:** HTML, CSS, Tailwind CSS, Javascript, JQuery, Bootstrap, React.js, Next.js, Redux, Node.js, Express.js, REST API, PostgreSQL, MongoDB
- **Others:** Data Structures and Algorithms in C++, OOPs, Operating Systems, Computer Networks, Git and Github, Figma
- **Soft Skills:** Team Collaboration, Critical Thinking, Communication Skills, Adaptability, Problem-Solving, Work Ethic

Experience

- **Web Development Intern** Dec 2025 – Jan 2026
(Zome Agency)
 - Developed **15+ RESTful APIs** for a service marketplace platform using **Node.js**, **Express.js**, and **PostgreSQL**.
 - Designed a complaint-driven **Trust and Safety system** including **user warnings**, **admin override blocking**, and **moderation workflows**.
 - Implemented **Role-Based Access Control (RBAC)** and **JWT authentication** for secure admin/user authorization.
 - Designed normalized **relational database schema** with foreign key constraints, Knex migrations, and complex joins.
 - Built **analytics APIs** to track repeat offenders, complaint distribution, and revenue insights for administrative monitoring and deployed backend on **Render**.

Projects

- **Chatly – Real-Time Chat Application**  
(A real-time chat application built with the **MERNstack**, **Socket.io**, and **JWT authentication**)
 - Designed and developed a full-stack real-time chat application using the **MERN stack**, implementing secure **JWT-based authentication** and scalable **REST APIs**.
 - Engineered a low-latency **1:1 messaging system** using **Socket.IO**, enabling real-time communication with online user tracking and instant message delivery.
 - Built a responsive and dynamic user interface using **React** and **Redux Toolkit**, integrating features like user search, profile management, and cloud-based image uploads.
 - Successfully deployed and debugged the application in production, using **Vercel** and **Render**, handling **CORS**, authentication flows, and environment configuration issues.
- **StayGenie – Airbnb Clone**  
(**MERN stack** web app for property booking and listings)
 - Built a full-stack platform replicating Airbnb's core features: property listings, booking system, and personalized dashboards.
 - Designed a responsive frontend using **React.js**, **Tailwind CSS**, **React Router DOM**, **Axios**, and managed global state via **Context API**.
 - Developed backend **REST APIs** using **Node.js**, **Express.js**, and **MongoDB** with **Mongoose**; implemented **JWT** for authentication and **Multer** for image uploads.
 - Deployed both frontend and backend on **Render**, with **MongoDB Atlas** as the cloud database.

Extra-curricular Activities

- **House Captain**, Jawahar Navodaya Vidyalaya (8th and 11th grade) – Led the girls' house and organized events.
- **School Captain** (Girls), Jawahar Navodaya Vidyalaya – Assisted in school leadership and event management.
- Achieved **Top 5 position** in the Smart India Hackathon (College Level) selection round.
